Weekly/Monthly Schedule

Development/Meditation Circle

There are many reasons why sitting with a group is invaluable for developing intuition and mediumship as well as strengthening integrity; the following are only a few:

- it creates a common ground with others, creating a nurturing and stable environment.
- it offers the opportunity to share experiences.
- it helps create discipline.
- it offers an opportunity to assist in the development of others' mediumship, while working toward your own.
- it offers an excellent support group.
- it offers the assistance of a teacher who can guide in your development.

The Gateway holds weekly Development Circles for those interested in learning how to tap into their spiritual and psychic energies. If you're interested or want more information please call:

270-3341 - Fee: \$30/month

Teachings of Spiritualism

There are many facets to the study of Spiritualism but at its core is the belief, based on the teachings of spirit guides, evidence collected through mediumship, and personal experience, that spirit animates us all. We have a physical body now, but when we die that part of us that is spirit moves on. While still in our physical form it is possible to communicate with spirits outside our self. It is this creative animating force that unites all of mankind, one to another, while at the same time connecting us to that, which is beyond the physical.

Many call the creative, universal spirit, God. How you choose to label the creative force is not as important as coming to know how it is at work in your everyday life. Guidance to the answers of life's big questions is always available, we need only to learn how to hear and trust in that connection.

How and even if you decide to communicate with Spirit is up to you. Everyone has the innate ability to commune with spirit, but not all of us develop this capacity. While for some, the sense of spirit is already sharp, for others it takes time and work to re-open the link. There are many ways for Spirit to *get in touch* with us when we need guidance, protection, solace or teaching. The methods range from feelings we call 'instinct' to something as profound as the manifestation of a spirit, or, even by simply *walking through a door*
